**ROTARY AT WORK: Horn of Africa Polio Free Once More**

Following an outbreak that began in 2008, as of July 30th, the Horn of Africa is again polio-free, with Ethiopia, Kenya, Sudan, and Uganda having reported no wild poliovirus cases for more than a year. The date marks a step toward the achievement of a major objective of the Global Polio Eradication Initiative's new strategy -- stopping polio in Africa. The GPEI spearheading partners are the World Health Organization, Rotary International, the U.S. Centers for Disease Control and Prevention, and UNICEF.
